

Tracking

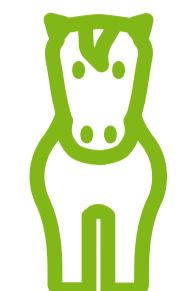

Self-recharging
battery

Satellite
technology

Bovine

Equine

Ovine

Caprine

Functions

Tracking:

- GPS (<2,5 CEP).
- GPS Frequency (L1 + L5).

Customizable timing:

- 13 timing modes.

Specifications

Design:

- Extendable and adjustable collar made of high-tenacity polypropylene.
- Dimensions:
Height: 101 mm - Width: 172 mm
Thickness: 105 mm - Weight: 750 gr

Connectivity:

- Satellite communication services.

Recharging:

- Integrated solar panel

Battery:

- Guaranteed autonomy even with low solar exposure.

Data

Data generated by the satellite **GPS device** can be downloaded via the system's web interface in **.CSV, .XLS, and .KMZ** formats.
